NOX ARMONIA

by milkorvaa

The work

Nox Armonia is a generative work inspired by the immensity of the cosmos. Thousands of particles, like distant stars, form a central constellation, evolving in an infinite and contemplative ballet. Inspired by the goddess of the night, Nox, the title suggests a "nocturnal harmony," a celestial dance orchestrated by the stars. This work is an invitation to immerse oneself in the tranquility of the stars and to explore the unknown.
